WHOLESALE TRADelist
SPRING 1960

HOLLAND, MICHIGAN

Plant America!

You will find Weller's Perennials the best-

BECAUSE we make a **SPECIALTY** of growing them to perfection, and have the experience of more than 50 years in the business. Our plants make **REAL ROOTS**, and what is more important to a Perennial than a **GOOD ROOT SYSTEM**.

QUANTITIES AND PRICES: 25 or more plants of a variety or color sell at the 100 rate; 10 to 24 plants of a variety or color sell at the 10 rate. Due to the high cost of handling small quantities 10c must be added to the cost of each plant at the 10 rate for 5 to 9 plants of a variety. We cannot ship less than 5 of a variety or color.

We will be glad to quote prices on larger quantities. We are growing more plants now and because of modern field equipment and packing facilities, we can ship them without delay.

All stock is carefully packed in wire bound crates or boxes, for which a nominal charge will be made based on actual cost of material used. Free packing for payment in advance of shipment.

TERMS: Net 30 days; 2% discount 10 days from date of shipment. Free packing in addition to 2% discount for cash with order of \$10.00 or more.

SHIPPING: All shipments made F.O.B. Holland, Mich. Customer pays carrier for transportation charges. In case no instructions are given, we will use our judgment as to best carrier, but without any responsibility on our part.

All goods travel at purchaser's risk. Our responsibility ceases when goods are delivered in good order to the carrier. Claims for damage or delay in transit should be filed immediately with the delivering carrier. We are ready to render assistance with the preparation of a claim should you so desire.

Small orders will be sent by parcel post if this is cheaper, in which case postage will be billed to the customer. However, Orders Accompanied by Cash **cannot** be sent by Parcel Post unless sufficient postage charges (about 15% of order) are included with remittance.

SPECIAL NOTICE! NEW SHIPPING FACILITIES! SHIPMENTS WILL MOVE FAST!

We take pleasure in announcing a **NEW AIR FREIGHT SERVICE** for the shipment of many varieties of our Perennials at a nominal cost. The plants, cleaned and bare-root, will be packed in polyethylene-lined crates, with no other packing, to save weight. Packed in this manner the weight ratio is from 7 to 10 plants to one pound. Shipments picked up on a Monday, for example, should be delivered to any main Airport City within the United States mainland by the following Tuesday or Wednesday, no later. If interested, write us for a rate chart which we will furnish gratis.

PICKUP SERVICE: Due to the spread of our Nursery fields it is impossible for us to fill orders, without prior notice, for visiting customers. If you are planning on making a personal pickup during the shipping seasons, please place your order in advance so it can then be processed in our usual, expert manner and ready to pick up when you call.

WHOLESALE ONLY: All orders from new customers must be written on business letter-heads or must include a State License number for operating a business of a horticultural nature.

We aim to give you QUALITY, SERVICE and VALUE.

Weller's Herbaceous Perennials

For Spring 1960 Delivery

Due to the hot, dry summer we experienced last year many varieties did not mature, or died. They are included in those marked "Sold Out" in this catalogue.

TOP QUALITY PLANTS

Our plants are all fully developed, heavy material and will bloom and give maximum results the first season after planting. All plants are strong, field-grown, two year old transplants, unless otherwise specified. Biennials are one year old.

PLANT DESCRIPTIONS

Varieties marked () are especially suited for cutting; marked (†) are excellent for rockeries; marked (°) are best suited for ground cover. Varieties printed in bold type are exceptionally good. The flowering period is indicated by the name of the month as: "May-June."*

	Per 10	Per 100

†SAXATILE COMPACTUM. Bright yellow. 10 inch. May.-----	2.00	15.00

PERENNIALS FROM COLD STORAGE FOR EARLY SPRING at no extra cost.

Now you can have your perennials shipped any time in the winter and early spring—regardless of the weather. Many areas can use perennials after our fall season has frozen up and before the spring thaws start in this part of Michigan. Nurseries and garden centers in more southerly areas and mail order houses shipping to southern areas have welcomed this service which enables them to stretch their season for more profits and savings. Many customers are using winter idle labor to pot up perennials ahead of time.

For **STORAGE SHIPPING** our plants are dug from the field late in the fall and immediately placed in our modern cold storage rooms where the plants are kept in perfect dormant condition under the right temperature and humidity conditions. These plants can be repacked and shipped to you at any time to suit your convenience. You will be pleased by the wonderful condition of these plants. They are fully dormant for best handling, clean and healthy and are ready to respond to growing conditions.

Please note that for regular orders during the fall and spring the plants are all dug fresh from the field.

	Per 10	Per 100

PERENNIALS IN FLOWER are extremely useful for adding color and value to your landscape plantings. An assortment of perennials potted early in the spring will furnish you with full flowering plants that can be placed IN FLOWER right on your landscape job. For example, you can have delphiniums for early summer plantings and cushion mums for late summer and fall plantings.

TREE PEONIES. 1 year old grafted, imported from Japan. -----\$1.25 each
White, pink and red. Each plant is labeled individually with name and color.

BOXWOOD WELLERI

Weller's Hardy Northern Type

BUXUS SEMPERVIRENS WELLERI

HARDIEST — An extremely hardy and distinct strain developed by our Nursery from Buxus Sempervirens and fully tested over the past 20 years in every section of the country.

PRETTIEST — This unusual boxwood forms a beautiful bushy, ball-shaped plant with a deep green foliage that stays green all year — no scraggly growth and no browning in the winter.

GREATEST USEFULNESS — Welleri is a graceful dwarf bush, ideal for modern landscape plantings where the emphasis is now on low and slow-growing good evergreens. It is also perfect for hedging and formal plantings and planter boxes because it can be trimmed to any size or shape.

BEAUTIFUL BUSHY PLANTS — NOT STRINGY SHOOTS.

ROOTS ARE CLEAN AND FIBROUS — AS BUSHY AS THE FOLIAGE.
